Details about the SEND Code of Practice can be found on the Department for Education's website:

[SEND code of practice: 0 to 25 years - GOV.UK \(www.gov.uk\)](https://www.gov.uk/government/publications/send-code-of-practice-0-to-25-years)

The SEND Local Offer is a resource that is designed to support children and young people with special educational needs and/or disabilities and their families. It describes the services and provision that are available both to those families in Nottinghamshire that have an Education, Health and Care Plan and those

who do not have a plan, but still experience some form of special educational need. The SEND Local Offer includes information about public services across education, health and social care, as well as those provided by the private, voluntary and community sectors.

[Nottshelpyourself | SEND Local Offer](#)

Mission statement

Leen Mills Primary school has a learning environment that is inclusive, stimulating and provides challenge for all learners. Children understand that learning is a process of exploring their lives and developing skills they need to become independent. Children learn that they can direct their learning to achieve their goals. They believe that change is something they can control and shape to reflect the school they want to create, the society they want to live in and the person they want to be. All children deserve a good quality of life where they are safe and happy.

1. Aims and objectives

Aims

We aim to provide every child with access to a broad and balanced education. This includes the National Curriculum in line with the *Special Educational Needs Code of Practice*.

Our aims are:

- a) To develop a positive self-esteem in all pupils.
- b) To develop a person centred approach to support.
- c) To foster a strong partnership between home and school so that parent/carer and staff help one another in supporting children's learning.
- d) To provide a friendly, caring, secure environment, which fosters independence, a sense of mutual responsibility and respect for the physical, spiritual, emotional and social needs of self and others.
- e) To provide a supportive, stimulating and attractive environment, which will facilitate children's learning and help them to become independent learners.
- f) To seek to empower children with the skills and knowledge, which will enable them to lead happy and successful lives.
- g) To ensure equal opportunities to all members of the Leen Mills Primary School community.
- h) To identify needs as soon as possible in order to implement a graduated response.

Objectives

- **Identify the needs of pupils with SEND as early as possible.** This is most effectively done by gathering information from parents, education, health and care services prior to the child's entry into the school.
- **Monitor the progress of all pupils** in order to aid the identification of pupils with SEND. Continuous monitoring of those pupils with SEND by their teachers will help to ensure that they are able to reach their full potential.
- **Make appropriate provision to overcome all barriers to learning and ensure pupils with SEND have full access to the National Curriculum.** This will be co-ordinated by the SENDCo and will be carefully monitored and regularly reviewed in order to ensure that individual targets are being met and all pupils' needs are catered for.
- **Work with children** to promote a person centered approach and ensure that pupil voice is at the heart of all decisions made and provision put in place.
- **Work with parents** to gain a better understanding of their child, and involve them in all stages of their child's education. This includes supporting them in terms of understanding SEND procedures and practices, providing regular reports on their child's progress. Information on the

provisions for pupils within the school as a whole, and the effectiveness of the SEND policy and the school's SEND work will be reported to the Governing body annually.

- **Work with and in support of outside agencies** when the pupil's needs cannot be met by the school alone.
- **Create a school environment where pupils feel safe to voice their opinions of their own needs.** This means listening to pupils so that their knowledge and wishes help guide the development of their learning strategies and targets. Pupils will be given information about their progress so they are fully aware of how they are progressing and can make choices about what they need to do next. Pupil participation is a right. This will be reflected in decision-making but also encouraged through wider opportunities for participation in school life *e.g. membership of the School Council*.
- **Develop links with local schools to share expertise and develop a shared plan for development.** SENDCO's from the local family of schools meet regularly to share funding for children recognised as needing additional support (AFN). The schools write a shared development plan that targets needs identified through training programmes for schools.
- **Shared Family Facilities.** Local Schools have the aim of working together to share facilities and expertise. Leen Mills has a respected Nurture Group where we are developing various therapies and interventions to support children emotional development and self-esteem.

2. Responsibility for the coordination of SEND provision

- The person responsible for overseeing the provision for children with SEND is Mrs Nicola Davies ((SENDCo)).
- The person co-ordinating the day to day provision of education for pupils with SEND is Mrs Nicola Davies.
- All teaching staff have responsibility for planning, delivering and assessing the progress of children with SEND in their class.
- The school currently has a number of Teaching Assistants who offer specialist knowledge in a range of areas including intervention use, autism, positive mental health, metacognition, dyslexia, and Attention autism, to support staff, children and parents. Their role supports the management of SEND by the SENDCo and their skills are used flexibly according to planned development needs.

3. Arrangements for coordinating SEND provision

The SENDCO will hold details of all SEND Support records such as provision maps, or SEND support plans and learning targets for individual pupils.

All staff can access:

- The Leen Mills Primary school SEND Policy;
- A copy of the full SEND Register or alternative school document used for tracking this cohort;
- Guidance on identification in the Code of Practice (SEND Support and pupils with Education, Health and Care Plans.)
- Information on individual pupils' special educational needs, including action plans, targets set and copies of their records of targets set/outcome monitoring.
- Practical advice, teaching strategies, and information about types of special educational needs and disabilities. (Available via office 365 and hard copies in school.)
- Information available through Nottinghamshire's SEND Local Offer.

This information is made accessible to all staff and parents (parents will not have access to information relating to other children) in order to aid the effective co-ordination of the school's SEND provision. In

this way, every staff member will have complete and up-to-date information about all pupils with special needs and their requirements that will enable them to provide for the individual needs of all pupils.

4. Admission arrangements

The admission arrangements for *all* pupils are in accordance with national legislation, including the Equality Act 2010. This includes children with any level of SEND; those with Education, Health and Care Plans and those without.

5. Specialist SEND provision

Leen Mills Primary School is a mainstream school.

We employ 1 SENDCO and 2 TAs who specialise in SEND provision and support. Additional teaching assistants (TA's) are employed according to needs identified.

We are committed to whole school inclusion. For more information on our provision for inclusion see section **10**.

6. Facilities for pupils with SEND

The school has a range of SEND facilities in place. These are:

- a) An adapted toilet facility with wide access, adapted toilet, alarm.
- b) A dedicated Nurture Room used to support the emotional developments of children,
- c) A sensory room
- d) Positive Play Therapy room
- d) A dedicated hygiene suite

7. Allocation of resources for pupils with SEND

All pupils with SEND will have access to Element 1 and 2 of a school's budget which equates to £6,000. Some pupils with SEND may access additional funding. This additional funding might be from a budget that is devolved to and moderated by the Family of Schools. (The Family of Schools comprises of a secondary school and its feeder primary schools). For those with the most complex needs, additional funding is retained by the local authority. This is accessed through the Family of Schools. The Family SENDCO will refer individual applications to a multi-agency panel, which is administered by the Local Authority, who will determine whether the level and complexity of need meets the threshold for this funding.

At Leen Mills, the SENDCO and head teacher manage the allocation of resources supporting children with SEND. This includes allocation of teaching assistants, learning resources including technologies, specialist equipment etc.

Not all children identified as having SEND will require additional funding. Their class teacher may meet their level of need by adapting learning tasks, strategies and facilities to the pupils need. This can be done in a variety of ways that teachers will plan for on a daily basis. These include setting tasks at a differentiated level, matching pupil interests to their learning at an individual level, using resources that promote access e.g. by more hands on approach / specialist toileting facilities, and giving additional small group or 1:1 support from the class teacher.

Where additional adult support is required for specific learning, teaching staff may deploy teaching assistants that are usually shared across a key stage. Children may access their learning via a specific intervention run by the TA or through additional support in a small group or 1:1 as part of the class lesson.

If a child's need is more specific e.g. due to a disability, then the above procedures may require an additional level of support in order for the pupil to make progress.

- a) The SENDCO will assess the pupil need through consultation with staff, parents and the head teacher
- b) The SENDCO will advise if she assesses that an application for additional funding devolved at a local family level (AFN funding) or at a higher level from the local authority (HLN funding) is appropriate, based on the funding criteria set by each panel.
- c) The SENDCO will gather information to complete an application and submit this to the next panel that meets to consider the application for AFN or HLN funding support.
- d) The SENDCO will consult with the family SENDCO and any agencies involved including health and education services supporting SEND. Their views or support will aid the completion of the application.
- e) The SENDCO will inform staff and parents of the panel's decision.
- f) Where an allocation is made, the SENDCO and head teacher will agree any staff changes required and make arrangements.

- g) The SENDCO and Headteacher will oversee the use and monitor the impact of these additional resources.
- h) The SENDCO and Headteacher will manage any changes to these arrangements e.g. where resources are allocated for a key stage, a year, a term etc.

All schools have an allocation of Pupil Premium to support the progress of pupils who meet the criteria for its allocation. At Leen Mills we have a designated teacher coordinating this resource. The SENDCO may consult with this teacher where a pupil with SEND has an allocation of Pupil Premium that may be used to support an identified need.

The SENDCO will consult with staff, parents and pupils where the use of inclusive technologies may support a learning need. For example, a pupil with mobility needs may need an ICT tablet / IPad etc. to enable fine motor skill development. If it is agreed that such a resource is needed, The SENDCO will make an application for an assessment for specialist inclusive technology. This process will be monitored by the SENDCO with the support of PDSS (Physical Disability Support Service), health etc.

8 Identification of pupils needs

Identification

Early identification is key. This will be initial identification by the class teacher, in conjunction with parents.

A child will be considered to have individual needs where they require provision which is additional to or different from what would usually be expected. This may mean that one or more of the following apply:

- a) The child has a disability that has a negative/ significant impact on their learning. This includes cognition and learning, anxiety, behaviour and emotional wellbeing, sensory and physical development. This will require provision which is additional to or different from what would normally be expected as part of quality first teaching.
- b) The child has significant delays in progress, having had appropriate support at home and / school to support their needs.
- c) The school considers the child's progress to be vulnerable due to specific circumstances in their life.
- d) The child requires an Education, Health and Care plan.

A graduated approach:

Quality First Teaching

- a) Any pupils who are falling significantly outside of the range of expected academic achievement in line with predicted performance indicators and grade boundaries will be monitored. This will be identified by the class teacher in order to begin a graduated response.
- b) Once a pupil has been identified as *possibly* having SEND they will be closely monitored by staff in order to gauge their level of learning and possible difficulties.
- c) The child's class teacher will take steps to provide differentiated learning opportunities that will aid the pupil's academic progression and enable the teacher to better understand the provision and teaching style that needs to be applied.
- d) The SENDCO will be consulted as needed for support and advice and may wish to observe the pupil in class.
- e) Through (b) and (d) it can be determined which level of provision the child will need going forward.
- f) If a pupil has recently been removed from the SEND list they may also fall into this category as continued monitoring will be necessary.
- g) Parents will be informed fully of every stage of their child's development and the circumstances under which they are being monitored. They are encouraged to share information and knowledge with the school.
- h) The child is formally recorded by the school as being under observation due to concern by parent or teacher but this does not place the child on the school's SEND list. It is recorded by the school as an aid to further progression and for future reference.

- i) Pupil progress meetings are used to monitor and assess the progress being made by the child. The frequency of these meetings is dependent on the individual child's needs and progress being made.
- j) Approaches to behaviour will be consistent with the school behaviour policy. However, consideration will be made to underlying needs.

SEND Support

Where it is determined that a pupil does have SEND, parents will be advised of this and the decision will be added to the pupil's school. The aim of formally identifying a pupil with SEND is to help school ensure that effective provision is put in place and so remove barriers to learning. The support provided consists of a four – part process:

- Assess
- Plan
- Do
- Review

This is an ongoing cycle to enable the provision to be refined and revised as the understanding of the needs of the pupil grows. This cycle enables the identification of those interventions that are the most effective in supporting the pupil to achieve good progress and outcomes.

Assess

This involves clearly analysing the pupil's needs using the class teacher's assessment and experience of working with the pupil, details of previous progress and attainment, comparisons with peers and national data, as well as the views and experience of parents. The pupil's views and where relevant, advice from external support services will also be considered. Any parental concerns will be noted and compared with the school's information and assessment data on how the pupil is progressing.

This analysis will require regular review to ensure that support and intervention is matched to need, that barriers to learning are clearly identified and being overcome and that the interventions being used are developing and evolving as required. Where external support staff are already involved their work will help inform the assessment of need. Where they are not involved they may be contacted, if this is felt to be appropriate, following discussion and agreement from parents.

Plan

Planning will involve consultation between the teacher, SENDCO and parents to agree the adjustments, interventions and support that are required; the impact on progress, development and or behaviour that is expected and a clear date for review. Parental involvement may be sought, where appropriate, to reinforce or contribute to progress at home. The child's viewpoint will form the starting point for planning for support and provision.

All those working with the pupil, including support staff will be informed of their individual needs, the support that is being provided, any particular teaching strategies/approaches that are being employed and the outcomes that are being sought.

Do

The class teacher remains responsible for working with the child on a day-to-day basis. They will retain responsibility even where the interventions may involve group or one-to-one teaching away from the main class /subject teacher. They will work closely with teaching assistants and /or relevant specialist staff to plan and assess the impact of support and interventions and links with classroom teaching. Support with further assessment of the pupil's strengths and weaknesses, problem solving and advising of the implementation of effective support will be provided by the SENDCO.

Review

Reviews will be undertaken in line with agreed dates. The review process will evaluate the impact and quality of the support and interventions. It will also take account of the views of the pupil and their parents. The class teacher, in conjunction with the SENDCO will revise the support and outcomes based on the pupil's progress and development making any necessary amendments going forward, in consultation with parents and the pupil.

Either prior to, or as part of the review meetings, the child's views will be sought to ensure this forms the basis of the review.

Parents will be provided with clear information about the impact of support to enable them to be involved in planning the next steps.

Referral for an Education, Health and Care Plan

If a child has lifelong or significant difficulties that can not be met by the school, they may undergo a Statutory Assessment Process which is usually requested by professionals but can be requested by a parent. This will occur where the complexity of need or a lack of clarity around the needs of the child are such that a multi-agency approach to assessing that need, to planning provision and identifying resources, is required.

The decision to make a referral for an Education & Health Care Plan will be taken at a progress review.

The application for an Education, Health and Care Plans will combine information from a variety of sources including:

- Parents
- Teachers
- SENDCO
- Social Care
- Health professionals

Information will be gathered relating to the current provision provided, action points that have been taken, and the preliminary outcomes of targets set. A decision will be made by a group of people from education, health and social care about whether or the child is eligible for an EHC Plan. Parents have the right to appeal against a decision not to initiate a statutory assessment leading to an EHC Plan.

Further information about EHC Plans can found via the SEND Local Offer:

[Nottshelpyourself | What is the SEND Local Offer? \(familyservicedirectory.org.uk\)](http://Nottshelpyourself | What is the SEND Local Offer? (familyservicedirectory.org.uk))

or by speaking to an Education, Health and Care Plan Co-ordinator on:

0115 9774012 or 0115 9773323

or by accessing the Nottinghamshire EHC Hub:

Nottinghamshire education, health and care hub | Nottinghamshire County Council

or by contacting the Parent Partnership Service on:

0115 948 2888

Education, Health and Care Plans [EHC Plan]

- a. Following Statutory Assessment, an EHC Plan will be provided by Nottinghamshire County Council, if it is decided that the child's needs are not being met by the support that is ordinarily available. The school and the child's parents will be involved developing and producing the plan.
- b. Parents have the right to appeal against the content of the EHC Plan. They may also appeal against the school named in the Plan if it differs from their preferred choice.
- c. Once the EHC Plan has been completed and agreed, it will be kept as part of the pupil's formal record and reviewed at least annually by staff, parents and the pupil. The annual review enables provision for the pupil to be evaluated and, where appropriate, for changes to be put in place, for example, reducing or increasing levels of support.

9. Access to the curriculum, information and associated services

Pupils with SEND will be given access to the curriculum through the specialist SEND provision provided by the school as is necessary, as far as possible, in line with the wishes of their parents and the needs of the individual.

Using the pathway to provision document, pupils' provision will endeavour to prepare them for adulthood at the earliest appropriate stage.

Every effort will be made to educate pupils with SEND alongside their peers in a mainstream classroom setting. Where this is not possible, the SENDCO will consult with the child's parents for other flexible arrangements to be made.

Where a pupil's attainment is lower than age appropriate, staff will monitor their progress and plan to accelerate progress so that the gap between the pupil's attainment and their age appropriate attainment becomes smaller. Closing this gap means that the pupil is "catching up". SEND Pupils who make good progress will be closing this gap.

Pupils may need differentiated access to their learning. The curriculum may be adapted, the approach to the learning may be adapted, the pupil's access may need adapting e.g. where mobility needs require use of a walking aid, wheel chair etc.

This will give children with SEND the opportunity to fulfil their aspirations.

Where the curriculum needs reviewing, the following arrangements may be considered.

SEND Support. A child may be entered onto a school register if their need meets with the criteria for **SEND Support**. Not all children with SEND will be on this register. The category **SEND Support** applies to children with more complex needs, and/ or children who's progress is significantly delayed (2 years or more) . This may include children with disabilities, emotional / social developmental difficulties, other significant learning delays. **SEND Support** does not require a diagnosis. Children on this register will have a SEND Support Plan.

The SEND Support Plan sets out steps for their learning, and will include information about:

- the short-term targets set for or by the child
- the teaching strategies to be used
- the provision to be put in place
- when the plan is to be reviewed
- outcomes (to be recorded when provision is reviewed).

SEND Support Plans will be written through a consultation process that will involve all stakeholders. Children will be involved in this process to ensure that their point of view is considered and, where possible, targets match needs they have also identified and agree to work on.

Some children on **SEND Support register** will be reviewed at Leen Mills Primary School once per term. The SENDCO will invite parents to attend a meeting alongside teaching staff and TAs.

Children will be supported to develop their independence both in class and through extra-curricular activities.

Children who have SEND but who are not on the **SEND Support** register will also have their progress reviewed and communicated to parents at parent/guardian evenings. The SENDCO will not be involved in these meetings.

- Staff may need to plan a differentiated curriculum that meets the pace of learning suitable for the child. This may involve setting learning objectives, personalised for the child.
- Staff may group children of similar need / level of ability to enable group work and differentiated learning objectives. On occasion this learning may happen out of the class with adult support. This enables pupils to focus on their learning in a quieter space.
- Staff may offer a differentiated approach to learning e.g. using a more hands on approach or more active learning to engage the learner. Technology may be used with specific ICT programmes.
- Teaching assistants may be used to support access detailed above.
- Pupils may work in more than one class where target grouping is used.
- Pupils may have a personalised target sheet. This will have a specific learning objective written in child friendly language, a series of boxes to record evidence of success and a reward agreed with the child. The aim is to motivate the child by having them know and focus on a specific need agreed with them.
- Pupils may need a specific intervention to support their need. These are tried and tested programmes aimed to accelerate progress over a period of time. Programmes used at Leen Mills include Look and Say for reading fluency, Switch On Reading, Positive Play therapy, Drawing and Talking Therapy and Precision Teach. These are a few examples of many interventions available. They are matched carefully to a child's need and progress is monitored (see 11 below).
- Where an individual pupils needs cannot be met entirely by education on the school site, visits to other educational facilities may be considered. This would be agreed with parents and the local authority.

Health Care Plan

If a child has a medical need they may require a **Health Care Plan**. This will be written in school with health and parent involvement. The details will be circulated to all staff. The plan will be reviewed with the parent as any changes are required. Parents will need to inform school as changes occur. The plan will be updated as changes occur. A child may need adaptations to their curriculum in line with their health care plan. Any activity that may present a specific risk to a child will be adapted as far as possible to remove the specific risk and enable learning via safe activity. For trips and residential visits, parents will be consulted for any specific risks relating to the visit and agreements made. (See Visits Policy)

To promote a child's access to learning, the school may need to consult with a range of services, some of whom may work with the child or advise staff on strategies. Where outside agencies are involved, your permission will be sought prior to the agency work in school. See **14.** for agencies that may be involved.

10. Inclusion of pupils with SEND

The Head teacher and SENDCO oversee the school's policy for inclusion and is responsible for ensuring that it is implemented effectively throughout the school.

The school curriculum is regularly reviewed by Curriculum Coordinators and the SENDCO to ensure that it promotes the inclusion of all pupils. This includes learning outside the classroom.

The school will seek advice, as appropriate, around individual pupils, from external support services through the termly 'Springboard meetings', Early Help Unit and the Multi-Agency Safeguarding Hub.

11. Evaluating the success of provision

In order to make consistent continuous progress in relation to SEND provision the school encourages feedback from staff, parents and pupils throughout the year.

- **Staff** are able to give feedback to SENDCO and TA's through training opportunities, on-going discussion, reviews of children's progress and Provision Map review meetings. Staff manage progress data for all pupils and the progress. Teaching assistants are part of a network and meet to share approaches and identify training needs.
- **SEND Pupils** are able to give feedback through informal discussion about targets and progress. Pupil voice is used up to three times per year as part of the SEND Support Plan review process. **Pupil progress** will be monitored on a termly basis in line with the SEND Code of Practice.
- **Parents** are invited to give feedback at SEND Support Plan reviews. Their comments are recorded on the SEND Support Plan. We also have 2 formal parent/carer meetings each academic year. Informal discussion happens throughout the year.

Pupil and parent voice may also be used to assess impact of changes made to provision.

Provision Mapping

A provision map is developed each year to monitor interventions used to support children. This enables interventions to be planned and monitored over the year. Intervention progress is measured by carrying out an assessment before and after the intervention. This gives a progress score. The outcomes of an intervention will be reported to SENDCo at the end of the intervention period to assess the success in terms of pupil progress towards ARE.

At the end of the academic year the SENDCO assess all interventions used, and considers recommendations for the next year. If interventions are not considered to be working staff will report this during the course of the intervention rather than continue with an unsuccessful strategy.

The end of year intervention report forms part of the formal evaluation of the effectiveness of the school SEND provision and policy. The evaluation is carried out by the SENDCO and information is gathered from different sources such as child and parent surveys/ teacher and staff surveys/parents evenings/ consultation evening/ feedback forms/school forums. This will be collated and published by the governing body of a maintained school on an annual basis in accordance with section 69 of the Children and Families Act 2014.

Evidence collected will help inform school development and improvement planning.

12. Complaints procedure

Refer to the general complaints procedure.

- If a Parent or carer of a child with SEND has a complaint they should initially approach the class teacher to see if a discussion can help the problem.
- If they are still dissatisfied they should feel free to approach the SENDCO and the head teacher in order to help address the problem.
- If these discussions still fail to satisfy the parent or carer they should be advised of the appropriate person within the LA that they can contact.
- If the LA fail to solve the difficulty they will be advised by the LEA of their rights to seek further help through an SEND tribunal or similar.
- At all times the names and work addresses of outside agencies involved with their child should be available to Parents and Carers in order that they can communicate with them.

13. In service training (CPD)

We aim to keep all school staff up to date with relevant training and developments in teaching practice in relation to the needs of pupils with SEND. Training occurs through the following procedures.

- Training for lunch staff is usually made available the Headteacher or SENDCo.
- Training for teaching staff may be delivered from within school for many needs.
- SFSS, Health , SALT , EPS etc. can be approached to offer training that is not available within school.
- ECTs will be offered training from within the family, coordinated by the family SENDCO.
- Staff may identify training needs as part of their performance management.
- The SENDCO will assess training needs as part of regular reviews and may make recommendations to the head teacher.
- Where safe handling training is required, the SENDCO will approach PDSS to arrange training.
- The SENDCO will have regular training opportunities offered as part of the agreed development plan written at Family level by the Family SENDCO. Additional training may be offered through SENDCO conferences run by the LEA and outside training events e.g. .NASEND.
- Training for parents will be offered within school, if possible , or school will help parents make contact with specialist providers such as Children Centres, Healthy Families Team, etc.

We recognise the need to train *all* our staff on SEND issues .The SENDCo, with the senior leadership team, ensures that training opportunities are matched to school development priorities and those identified through the use of provision management (see Section 11).

14. Links to support services

The school continues to build strong working relationships and links with external support services in order to fully support our SEND pupils and aid school inclusion.

Sharing knowledge and information with our support services is key to the effective and successful SEND provision within our school. Any one of the support services may raise concerns about a pupil. This will then be brought to the attention of the SENDCo who will then inform the child's parents.

The following services will be involved as and when is necessary:

1. Educational Psychology
2. Healthy Families Team
4. Speech and Language Therapy
5. Occupational Therapy in conjunction with Physiotherapy

6. School and Family Specialist Service (SFSS)
7. Physical Disability Support Service
8. Community Paediatrician
9. Child and Family Services
10. Social Care
11. Health Staff at the Children's Centre at Nottingham City Hospital
12. CAMHs

15. Working in partnerships with parents

See also our Parent Partnership policy.

Leen Mills believes that a close working relationship with parents is vital in order to ensure

- a) early and accurate identification and assessment of SEND leading to the correct intervention and provision
- b) continuing social and academic progress of children with SEND
- c) personal and academic targets are set and met effectively

Parents are kept up to date with children's progress through formal reviews , Parent / Carer evenings etc. see 12 above.

If you have concerns we welcome your contact. Please phone the office and request a meeting with either the class teacher or SENDCo.

In cases where more frequent regular contact with parents is necessary, this will be arranged based on the individual pupil's needs. The SENDCO may also signpost parents of pupils with SEND to the local authority Parent Partnership service where specific advice, guidance and support may be required.

If an assessment or referral indicates that a pupil has additional learning needs the parents and the pupil will always be consulted with regards to future provision. Parents may be invited to attend meetings with external agencies regarding their child, and are kept up to date and consulted on any points of action drawn up in regards to the provision for their child. The school's SEND governor, Mr Cooney, may be contacted at any time in relation to SEND matters. Please phone the office to arrange contact.

16. Links with other schools

The school is a member of The Holgate Family of schools. This enables the schools to build a bank of joint resources and to share advice, training and development activities and expertise.

Transition

Leen Mills Primary School will undertake to liaise fully with Key Stage 3 when transferring children to the secondary school setting. They will also liaise with Early Years' settings when children transfer in to school . This will involve attending reviews and inviting colleagues from other settings to these reviews.

Children with SEND may benefit from a planned transition into Leen Mills or moving from our school. Where this is a requirement, parents will be informed of additional visits, school site familiarisation activities etc. Parents may be asked to accompany additional visits if this is agreed to be beneficial to the child's needs.

The SENDCo will oversee the development a transition plan for individual pupils or groups of pupils and assess its impact. Contact with staff at the child's next placement will be made and a meeting will be made so that parents can make contact with at least one member of the new staff team.

A transition book may be developed with the child so that they can take this home e.g. over a summer break, prior to starting at their new school.

Where summer school schemes are set up, parents whose children are eligible will be contacted with information and forms for application. The Holgate Academy and National Academy currently runs an enhanced transition program for children in transition from year 6 – 7. This helps familiarise children with the school site and some staff.

SEND Children who do not transfer to The Holgate Academy or National Academy may also have a transition plan if needed.

17. Links with other agencies and voluntary organisations

Leen Mills invites and seeks advice and support from external agencies in the identification and assessment of, and provision for, SEND. The SENDCo is the designated person responsible for liaising with the following:

- Education Psychology Service
- Behaviour Support Service
- Social Services
- Speech and Language Service
- Language and Learning Support Service
- Specialist Outreach Services

Representatives from voluntary organisations and other external agencies may also be invited to liaison meetings throughout the year to discuss SEND provision and progress and keep staff up to date with legislation.

In cases where a child is under observation or a cause for concern, focused meetings will be arranged with the appropriate agency. Parents will normally be invited to and informed about any meetings held concerning their child unless there are over-riding safeguarding issues.

18. Link to the Local Offer.

Details of the Local Offer from Nottinghamshire County Council, can be found by following the following links.
